## For Immediate Release

### **TCS, CMSA Celebrate Three Years of Acuity AnyWare™** *Case Management Software Aids Independent Case Managers, Small Groups*

**Auburn, CA, and Little Rock, AR | PR Web | October 13, 2011**—TCS Healthcare Technologies (TCS) and Case Management Society of America (CMSA) are celebrating the 3<sup>rd</sup> anniversary of the Acuity AnyWare software offering for independent case managers and small groups. This innovative hosted solution has helped dozens of case managers coordinate care for hundreds, if not thousands, of patients and has provided many enterprise-level features at a very reasonable cost. Acuity AnyWare is a product offered to CMSA members to promote better clinical and financial outcomes for a wide-range of case management programs.

Rob Pock, TCS founder and CEO, extended his thanks to CMSA for sponsoring Acuity Anyware. “CMSA’s support of this product continues to enhance the practice of case management in healthcare. By promoting use of the software to case managers, CMSA and TCS are working together to leverage technology and encourage best practices in the field.”

Acuity AnyWare users are able to quickly and easily transfer from a manual system to an electronic system within a matter of days. As a benefit of CMSA membership, Acuity AnyWare users do not have to enter into long term subscription agreements to use the dynamic software platform.

“CMSA is pleased to continue offering the Acuity AnyWare application as a member benefit,” says Cheri Lattimer, RN, BSN, CMSA executive director. “The web-enabled, hosted solution supports individual case managers without the need to install expensive software or have technical support to maintain it. The TCS – CMSA partnership is moving the ball forward by leveraging technology and automated workflows to help case managers implement care management treatment plans and coordinate transitions of care, which are critical activities as federal and state healthcare reforms are implemented.”

Acuity AnyWare is a software solution that is only offered to CMSA members. If a case manager is not a member, a person can join CMSA as an individual *or* corporate member to qualify.

For more information about TCS Healthcare Technologies, please contact John Sekerak at (530) 886-1700, ext. 211 or [jsekerak@tcshealthcare.com](mailto:jsekerak@tcshealthcare.com). **About TCS Healthcare Technologies ([www.tcshealthcare.com](http://www.tcshealthcare.com))**

TCS Healthcare Technologies (TCS) is a leading provider of software and clinical solutions that support and improve population health management strategies for health plans, insurers, providers, third party administrators, medical management companies, and others. TCS is recognized as one of the premier healthcare software companies in the United States designing, offering, and hosting a number of products and services. The following TCS applications support a wide range of care management transactions:

- Acuity Advanced Care™, a comprehensive and integrated care management software system for Utilization Management (UM), Case Management (CM), Disease Management (DM), and Prevention/Wellness (PW) services;
- Acuity AnyWare™, a web-enabled case management software application specifically designed for independent professionals or small organizations, which is sponsored by the Case Management Society of America (CMSA);
- AcuCare™, evidenced-based care programs, which includes clinical assessments and outcome based care plans;
- AcuStrat™, a population stratification and automation tool that turns patient healthcare Information into automated, actionable events;
- AcuExchange™, a provider portal that allows providers to submit authorization requests over the Internet and collaborate with the payer;
- AcuPort Advanced™, a middleware software (Extraction, Transformation, & Loading) solution to link disparate information, from multiple applications into one useful system; and
- AcuTab™, a seamless data-viewing system that allows users of ACUITY to view, search, sort, and report on data from other systems without having to log in to other applications or rely on third-party interfaces.

**About Case Management Society of America ([www.cmsa.org](http://www.cmsa.org)).**

The Case Management Society of America (CMSA) is an international non-profit 501 (c)(6) multi-disciplinary professional association established in 1990. CMSA is dedicated to the support and advancement of the case management profession through educational forums, networking opportunities, legislative advocacy, and establishing standards to advance the profession. The association is based in Little Rock, AR and serves more than 20,000 members/subscribers and 70 affiliate and pending chapters. Since its inception, CMSA has been at the forefront of setting professional standards for the industry, which allows for the highest level of efficiency and integrity, as well as developing national and local leaders who are recognized for their practice and professional excellence. For more information on CMSA, call CMSA at (501) 225-2229 or go to [www.cmsa.org](http://www.cmsa.org).
